

Earth First®

EARTH FIRST PRODUCT LINE

We developed our **Earth First** product line to meet the demand by consumers concerned with the environmental as well as our own commitment to sustainable practices.

Our **Earth First** products are manufactured from 100% recycled paper with up to 80% post-consumer content, and are whitened without chlorine bleaching to meet or exceed all EPA guidelines. Our bold product presentation immediately communicates the environmental benefits, adding strong support and margins to your paper program.

PRODUCT:	UPC#	CASE PACK	UNIT	SHEET COUNT	SHEET SIZE	PLY
----------	------	-----------	------	-------------	------------	-----
